SIXTY-THIRD AND SIXTY-FOURTH YEARS

This biennium has seen a change in our policy regarding medical care for our pupils. We have associated more closely with the Utah State Department of Health. At the beginning of the 1947-1948 school year a state nurse gave daily clinics

**School for the Deaf**

1948

Ronald J. Bess (High School-Academic) Salt Lake City, Ut.

Walter D. Wilson (Vocational) Dragerton, Utah

Varian La Vearl West (Vocational) Pleasant Grove, Ut.

**GENERAL INSTRUCTION**

Every pupil in the Utah School for the Deaf is instructed in the academic work by the use of lipreading and spoken and written language. In shops and assemblies and during physical education the combined method of communication is used.

The use of language in both spoken and written forms is emphasized in all class work.

The pupils are given the same studies as those given in the public schools with the exception that we add classes in sense training, speech and lipreading, and give additional emphasis to vocational training.

Group hearing aids are available for children of the primary grades. The purchase and use of individual hearing aids is encouraged in event audiometric tests show considerable residual hearing. It is felt that hearing of even limited amount is valuable in establishing a sense of accent, rhythm and quality which can to some degree aid in speech and lipreading.

The studies in the School for the Blind follow the courses as given to the public schools with additional courses in typing, braille, music and crafts.

**Vocational Training**

The following vocational courses are offered at the Utah Schools for the Deaf and the Blind:

Barbering, Chemistry, Drafting, Library Management, Photography, Typewriting and Bookkeeping, Dressmaking, Home Mechanics, Laundering, Shoe Repair, The Graphic Arts (hand composition, machine composition, presswork), Upholstering, Welding, Woodworking (cabinetmaking, Carpentry), Farm Mechanics, Clothing, Foods, Hotel

Service, Agriculture, Ceramics, Leather Crafts, Weaving, Art, Brush and Broom Making, Elementary Woodwork, Rabbit Raising.

### Awards

During the biennium two new yearly awards have been initiated. The Utah Association for the Deaf makes an Achievement Award to the year's outstanding pupil. A pin is given to the pupil, and the pupil's name is added to a plaque which is displayed at the school. La Vearl West of Pleasant Grove was the 1947 winner, and Cleo Morlock was the 1948 winner.

A sportsmanship award consisting of a trophy is given by Mr. Howard R. Nelson to the boy selected as the outstanding good sport of the year. Kenneth Kinner received this award which was first given at graduation time, May 1948.

### Clubs and Entertainments

Scouting has been the outstanding club activity at the Schools for the Deaf and the Blind during the biennium. We have had four very active troops which have accepted leadership in the community in rendering service whenever called upon. Our troop of deaf boys has shown greatly increased activity and new successful troops were started with the blind girls, blind boys and deaf girls.

The Park Literary Society, K.C.T. Club, and Arthur Wenger Athletic Association have continued to serve the pupils as sources of knowledge, ideals, and entertainment.

During the 1947-1948 school year the Ogden Kiwanis Club sponsored club rooms for our older deaf boys and girls. The lower floor of the Maids' Cottage was converted into club rooms. Furniture and reading books worth many hundreds of dollars were provided by the Kiwanis Club. Birthday parties and noon-day games and reading centered about the club rooms.

Possibly the outstanding single club activity was the sponsoring of roller skating by the A. W. A. A. boys. The skates

were serviced and the skating floor managed by the boys. A small fee was charged in order to eventually repay the investment. The old dining room floor in the former blind school building served as the skating rink.

Regularly scheduled movies at the school and weekend programs and parties have continued to give social benefit as have assembly programs and formal and matinee dances.

### **The Alumni**

During the summer of 1947 courses were given for the adult blind on our campus. Dr. Berthold Lowenfeld of the American Foundation for the Blind in New York City and Dr. C. Charles Hetzel of Ogden were the special instructors for the courses.

Both in 1947 and 1948 the Utah Association for the Blind held successful conventions on our campus. Also, our blind alumni have taken advantage of various programs at the school.

Every other Thursday afternoon the adult blind ladies of the community meet in a room of the school to study under the supervision of the State Commission for the Blind.

Unique in adult education was the evening course offered in carpentry to the adult deaf of our community during the 1946-1947 school year. Twelve adult deaf profited from the course.

Social activities at the school are well attended by our deaf alumni. Religious instruction to our deaf pupils is largely given by alumni members working for the L. D. S. Branch for the Deaf church. The "Frat", an adult deaf fraternity regularly meets in our school library.

### **Community Programs and Activities**

We have continued in the past two years our contact with the community. The public has been urged to attend functions at our schools, and the schools have gone into the community. We regret that our auditorium cannot accommodate the friends of the school, but we have been able to obtain the use of neighborhood church auditoriums for our more important gatherings.

Among our better attended public programs were: The Kiwanis Club Banquet, Lion's Club Santa Claus parties, Commencement Exercises, Rhythm Demonstrations, Primary Hall Programs, Christmas Plays, Spring Musicals, and Programs for Special Holidays.

We have been very active in presenting programs to various churches, P.-T.A. and school groups. Also, civic organizations and service clubs have called upon our services.

It has been a school project for classes to visit classes in the public schools.

We have received frequent visits from groups of nurses, welfare and civic organizations, and High School and University groups. They have gained understanding impressions of our work. This has aided in elevating the general educational and health levels of the State of Utah.

In civic drives such as: The March of Dimes, The Community Chest, The Red Cross, and drives for waste paper, scrap metals and clothing our pupils have prominently participated.

### **Changes in Farm and Laundry**

During the biennium our irrigation water supply from the Ogden Bench Canal was discontinued due to extensive washouts. This meant the end to all major agricultural activities at the school campus including the loss without replacement of our instructors in agriculture.

Our prize dairy was first to go. It was found to be unprofitable and of little if any instructional value under the circumstances. A committee of experts in the field was selected to make judgment on the feasibility of continuing in this field. The raising of other farm animals on the campus with the exception of hogs were also discontinued soon after. We are continuing to fatten beef animals in our Huntsville pastures.

Our small young orchard was replanted on campus lawns in order to save part by regular lawn sprinkling. Also, the United States Navy leased a sizeable section of our farm to construct a Naval Reserve Training Center.

It also became necessary to decide whether or not we

should attempt to continue our complete laundry operation. Our machinery and building facilities were in dire need of replacement. Neither the funds nor the equipment was available for such purposes. At present our washing is done commercially, and the pressing of all except flat pieces is continued at the school. This procedure is proving less expensive than doing the work ourselves, and the pupil training part of laundering is continued.

## BUILDINGS

### 1. Main Building

- a. Intermediate and advanced classrooms.
- b. Administrative Office
- c. School for the Deaf library
- d. Testing and field services
- e. Men's living quarters
- f. Adult blind classroom
- g. Girl Scouts' room *Assembly room*
- h. Blind Boy Scouts' room
- i. Sewing Department *and art.*
- j. Weaving *and* ceramics, *art and leather crafts* depts.

### 2. Old School for the Blind

- a. Auditorium for combined schools.
- b. Roller skating and dancing hall (formerly main dining hall)
- c. Laundry and soap rooms

### 3. Gymnasium Building

- a. Gymnasium
- b. Boxing room *Scout and recreation center*
- c. Deaf Boy Scouts' quarters
- d. Storage
- e. Fishing flies manufacturing room

### 4. Driggs Hall

- a. Dormitory for deaf and blind girls
- b. Domestic Science Department *Playroom*
- c. School for the Blind
- d. Braille Library
- e. Sight-saving Facilities

### 5. Woodbury Hall

- a. Dormitories for deaf and blind boys
- b. Printing, photography, drafting, mechanics, wood-working, upholstery, barber, shoe repair, and blind boys' shops.

#### **6. Primary Hall**

- a. Kitchen and dining rooms for combined schools
- b. Ladies living quarters
- c. Primary School for the Deaf

#### **7. Hospital**

- a. Rooms and wards for ill children
- b. Facilities for routine medical treatment

#### **8. Maids' Cottage**

- a. Rooms for lady employees
- Club rooms for older deaf pupils

#### **9. Boiler House**

#### **10. Engineering Shop**

#### **11. Superintendent's Residence**

#### **12. Greenhouse**

#### **13. Employees Garage**

#### **14. Farm Buildings**

Note: For changes compare with previous biennial report.

### **FIELD SERVICES FOR THE PERIOD**

**JULY 1, 1946 TO JUNE 30, 1948**

As in preceding years, a number of clinics were conducted to test the hearing of public school boys and girls who were suspected of having hearing losses. The majority of these clinics were requested and assisted by Public Health Nurses. It has been my experience that this is the only satisfactory method to conduct clinics. The Public Health Nurses are more vitally interested in hearing correction than school administrators or teachers. They organize clinics better, make better selections of students to be tested, and best of all follow-up those cases showing serious hearing losses and encourage medical treatments, advise parents, teachers, administrators and others what is best for the child.

Such services have been extended to the following areas covering a period of forty-six days: Provo, Spanish Fork, Salt

Lake City, Murray, Midvale, Mapleton, Springville, Payson, Price, Panguiteh, Tropic, Mt. Pleasant, Jensen, Naples, La Point, Tridel, Vernal, Roosevelt, Duchesne, Park City, Heber City, Tooele, Vernon, Logan, Hyrum, Jordan, Riverdale, Charleston, Oakley, Delta, Bountiful, Roy, Washington Terrace, Clearfield, Layton, Beaver, Milford, Tremonton, Brigham, Orem, Lehi, Ameriean Fork, St. George, Hurricane, Perry, Willard, Deweyville, Collinston, and Garland.

Visits were made to the homes of twenty-one deaf and six blind students of the Schools for the Deaf and the Blind in an effort to become better acquainted with parents and home conditions and assist the students in making adjustments.

Fifteen deaf and four blind children were visited to prepare them for enrollment at the school.

Thirty-six pre-school deaf and fifteen pre-school blind children were visited to determine their eligibility for entrance to the Schools for the Deaf and the Blind, and to pass on any information and encouragement to the parents, and to prepare them for enrollment.

Field services were extended to nine deaf and five blind of a follow-up nature, to assist them in higher education and (or) vocational training.

Fourteen cases having serious hearing losses and two with visual handicaps were referred to this department and services were rendered to assist them in adjusting better in their respective school districts.

One deaf-blind boy changed his residence to California, after we had given the family pre-school services and advice, and had arranged to enroll him in the special class for the deaf-blind at the California School for the Blind in Berkeley, California.

Services were rendered to: Four cases who were referred to us and who because of their handicaps and limitations were assisted in receiving help from the Vocational Rehabilitation Department. Three girls whose hearing had been greatly improved as the result of medical treatment and care and their school standards much improved following advice

given to their teachers. One boy was fitted with a hearing aid after I found the Ogden Elks Club as a sponsor, so he can continue in the public schools. One girl attended the Utah School for the Deaf until she became oriented and was built up physically and otherwise, then obtained a hearing aid and returned to the public school. One boy has had his hearing practically restored as the result of medical treatments, the advice of which originated in this department. One boy in the third grade in public school will begin school here in the School for the Blind this fall, also one started last fall to receive sight saving instruction. One little blind girl who is suspected of being feeble-minded will be given a psychological test and the parents advised as to the best procedure for her education and training.

Three students of the School for the Blind are being assisted in attending Public High School in their respective communities, arrangements having been made for admittance and reader service and any other coordination that was pertinent to their education. We also furnished typewriters, books, transportation, musical instruments and other assistance when such became advisable. Three students completed similar training in Public High School in 1947 and were assisted in being enrolled at Weber College for advanced training.

A total of 1578 audiometric tests were given in clinics at different parts of the state and 196 from our local area brought in by Public Health Nurses. Of these tests, about one-third of the cases have serious difficulty and medical treatments and follow-up work is necessary. However, it is encouraging to find the improvements on these cases when rechecks are made each year, and to hear of their improved school standards.

I have assisted Mr. Arch M. Thurman, Personnel Director of Salt Lake City Schools, in planning for and making preliminary investigations for a sight-saving class for the visually handicapped students in that area. Also, the Park City Schools are receiving this service.

Respectfully submitted,  
Harold W. Green, Field Director

## BUILDING AND CAMPUS IMPROVEMENTS

During the biennium the following improvements have become effective.

1. Covering the floors in Primary Hall with Asphalt tile.
2. Rearranging, modernizing, and changing location of the school's kitchen, dining rooms, and bakery.
3. Rearranging, modernizing, and changing of location of the school shops.
4. Renovating of our boiler house and the installation of new automatic stokers and controls.
5. Installation of water softener units for boiler house and kitchen.
6. Construction of curb and gutter along the entire front of property used by school.
7. Planting of lawns and shrubbery to improve the school frontage.
8. Refurnishing of office and teachers' room.
9. Renovating of Primary Hall to include larger, better ventilated and more adequate class rooms.
10. Relocation and arrangement of rhythm and reception rooms in Primary Hall.
11. Arrangement in Primary Hall to include a resting room for beginning pupils, an activities room and a recreation room.
12. Increased library stock and facilities.
13. Change and arrangement to temporary but more suitable classrooms and facilities for School for the Blind.
14. Relocating and improving the arrangement and facilities of the arts and craft department.
15. The establishing of club rooms for the older deaf pupils.
16. The remodeling of the Maid's Cottage into a home-making unit to include laundry, clothing, and foods departments.
17. The establishing of a modern and adequate maintenance-engineering shop.
18. The arrangement of a roller skating—recreational hall.
19. The relocating and improvement of scout quarters and facilities.

20. Tiling and painting in Woodbury Hall.
21. The changing of primary pupils to more suitable dormitory facilities.
22. Reroofing of kitchen and engineering shop.
23. Construction of a loading platform and cooling facilities for the kitchen.
24. The enlarging and improvement of rabbit raising facilities for blind boys.
25. Renovating and replacement of water heating facilities in Woodbury Hall, Driggs Hall, Primary Hall and the Green House.
